What are transition services?

Transition services are provided by the Licking County Board of Developmental Disabilities (LCBDD) to eligible individuals who are between the ages of 13 and 24.

Each person is matched with a Service Coordinator who will discover what is important to — and important for — that individual.

They work to get to know each person and understand their future goals, hopes and dreams, as well as what supports they need to make those things a reality.

Transition Service Coordinators can help with a variety of options as individuals prepare for adult life:

• Partnering with LCBDD Employment Specialists to help define the path to employment for each person
• Connecting families with resources and referring them to partner agencies in the community that assist with housing
• Helping and supporting families through the IEP process
• Linking families with a payee to help manage finances
• Assistance with coordinating transportation
• Connecting individuals with clubs, community activities, events and volunteer opportunities

For more information, contact LCBDD’s service coordination office, located at 565 Industrial Parkway, Heath, by calling 740-349-6588 or go to lcountydd.org.
