### **Ohio State Fair accessibility info.**

Today is opening day at the Ohio State Fair! If you plan to help people visit the fair, check out this link to info. on accessibility: <https://www.ohiostatefair.com/p/visit/accessibility>

### **FREE Relationships & Sexuality workshops for professionals**

Healthy relationship boundaries are an important skill for us all. Even though people with intellectual and developmental disabilities are sexual beings, just like everyone, they also need the information and skills to navigate these waters and learn what's okay and not okay in various settings.

This FREE 60-minute workshop will explore tips and tools for addressing sexuality one-on-one with the individuals you support. We will explore why this topic can be difficult to approach and useful tools that will help you become more comfortable and confident communicating about this sensitive topic.

Learning Objectives:

- Discuss the benefits of providing sexuality education
- Examine activities to teach healthy boundaries, such as different types of relationships, public vs. private, moving from friend to partner, body language, communication, and speaking up.
